Installing collected packages: numpy
Successfully installed numpy-1.24.3
Note: you may need to restart the kernel to use updated packages.

[notice] A new release of pip available: 22.3.1 -> 23.1.2
[notice] To update, run: python.exe -m pip install --upgrade pip
```

```
In [3]: pip install pip----upgrade
```

```
Collecting pip----upgrade
  Downloading pip-upgrade-0.0.6.zip (6.3 kB)
  Preparing metadata (setup.py): started
  Preparing metadata (setup.py): finished with status 'done'
Requirement already satisfied: pip>=1.5.1 in c:\users\sathi\appdata\local\pro
grams\python\python311\lib\site-packages (from pip---upgrade) (22.3.1)
Installing collected packages: pip----upgrade
  Running setup.py install for pip----upgrade: started
  Running setup.py install for pip----upgrade: finished with status 'done'
Successfully installed pip----upgrade-0.0.6
Note: you may need to restart the kernel to use updated packages.

DEPRECATION: pip----upgrade is being installed using the legacy 'setup.py i
ninstall' method, because it does not have a 'pyproject.toml' and the 'wheel' p
ackage is not installed. pip 23.1 will enforce this behaviour change. A possi
ble replacement is to enable the '--use-pep517' option. Discussion can be fou
nd at https://github.com/pypa/pip/issues/8559 (https://github.com/pypa/pip/is
sues/8559)

[notice] A new release of pip available: 22.3.1 -> 23.1.2
[notice] To update, run: python.exe -m pip install --upgrade pip
```
